FIELD OPERATIONS NOTICE

The Form 42 shall be submitted as required by Rule, Notice to Operators, Policy, or Condition of Approval. A Form 42 Update shall be submitted to revise the scheduled date or time on a previous Form 42 - Advance Notice of Field Operations. A Form 42 Update must be for the same well, location, or facility and for the same Field Operation as a previous Form 42. NOTE: Operator's Contact for Advance Notices of Field Operations should be available 24 hours a day, 7 days a week and should have the most current scheduling information for the operation. Operator's Contact for other notices should be able to respond to questions regarding the reported information.

Update of a previous Form 42 Notice NO

NOTICE OF CONSTRUCTION OR MAJOR CHANGE AT OIL & GAS LOCATION- 2 business days notice required

Start Date: 08/15/2025

For Construction or a Major Change at an Oil and Gas location, activities conducted between April 1st and August 30th, the Operator should review Rule 1202.a.(8).

Are Construction or Major Change operations at the Location anticipated to last for longer than one day? Yes

If YES, describe the anticipated duration and planned scope of these operations:

Pull rods and tubing . Run packer and bridge plug, and set bridge plug at 900'+/- and packer at 550'+/- (casing failure at 750'-800'). Cement casing leak with 350 +/- sacks of 11.4#/gal slurry. Drill out cement and test casing. Pull bridge plug set at 900'. Run cement bond log from 4800' to surface. Schedule and perform MIT. Pull bridge plug at 4800'. Run tubing and rods.
Operations are expected to take 2-3 weeks. Rig hand scheduling will be the controlling factor.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct and complete.
