Loc ID: 313626

Inspection: 714002181

Form 27 Doc # 404331014

Exhibit A

CA: The location is in an agricultural field, but the crop has not been planted this season. The location will remain in-process and will have to be inspected during the active crop growing season to make an accurate assessment of vegetation conditions to insure compliance with rule 1004 standards. Location records indicate that the Gray 13H Drilling, Frac and Flare Pits (Facility's 298024, 298025 and 298026) are still "active" and have not received closure. The reclamation status for this location will remain in-process pending closure of active pit facilities. Contact area EPS (Jason Kosola) for pit closure requirements.

CA Resolution: Operator has filed a Form 27 Doc # 404331014 in order to comply with Rule 1004.
