Re: Olguin #100S Well (API No. 05-067-09084) – Surface Reclamation per Rule 1004

Dear Commissioners,

This letter is written in reference to the Olguin #100S (the “Subject Well”) operated by Hilcorp Energy Company, which has been properly plugged and abandoned. I am the owner of the surface property upon which the Subject Well is in Section 13, Range 32N Range 7W, La Plata County CO.

I respectfully request that the surface location of the Subject Well remain in its current state of reclamation with no further modification. I intend to utilize the existing surface location for the storage of certain farm equipment and personal belongings, and the current condition of the site is suitable for this purpose.

By submitting this letter, I confirm that I do not desire any further reclamation or surface restoration activities to be performed by HILCORP Energy Company or any other party on the Subject Well location.

Thank you for your attention to this matter. Please let me know if any additional forms, documentation, or acknowledgements are required to process this request.

Sincerely,

Lloyd Olguin
Surface Owner
