Off-Location Flowline

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and 906.

Operator Information

ECMC Operator Number: 10633 Contact Person: James Miller
Company Name: CRESTONE PEAK RESOURCES OPERATING LLC Phone: (720) 984-7460
Address: 555 17TH STREET SUITE 3700 Email: jmiller@civiresources.com
City: DENVER State: CO Zip: 80202
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes [X] No [ ]

Description of Corrosion Protection

Crestone pipelines are covered in a protective external coating. Flowlines are subject to thorough inspections and fabrication standards during installation to minimize coating and pipe defects. Crestone maintains a chemical program to reduce internal corrosion. If a flowline is found to lack integrity, Crestone will investigate, report, and remediate any spills in accordance with the 900 series rules.

Description of Integrity Management Program

Crestone flowlines are pressure tested prior to placing flowlines into service. Flowlines are tested on an annual basis in accordance with COGCC 1104 series rules. If a flowline is found to lack integrity, Crestone will investigate the root cause, as well as report and remediate any spills in accordance with the 900 series rules. All repairs will be completed in accordance with COGCC 1102 Series rules.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

**OFF LOCATION FLOWLINE Abandonment Verification**

Date: 11/08/2024

**Abandonment Verification**

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).

Table with 3 columns: Jurisdiction, County, Municipality. Row 1: County, WELD, N/A

**Description of Abandonment Verification:**

The flowline serving the Kawakami 6-0-35 (05-123-27382) was partially abandoned in place as per Rule 1105.d and verified by a third party. A segment from the wellhead to the edge of the nearby field was removed, the remainder was abandoned in place. See attached exhibit for flowline path. Where the flowline segments were removed, the trench was backfilled and the land surface was graded.

The flowline serving the Kawakami 4-2-35 (05-123-29140) is now out of service as per rule 1102.O.(2). The most recent successful pressure test was conducted 5/5/2019.

**OPERATOR COMMENTS AND SUBMITTAL**

Comments Form 44 filed to report POST-ABANDONMENT verification. The following flowline was partially abandoned in place and partially removed:  
12327382\_FL: services the Kawakami 6-0-35 (05-123-27382)  
  
Third party verification attached.  
Updated GIS data attached.  
All other related flowlines will remain as previously reported.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Signed: \_\_\_\_\_ Date: 02/05/2025 Email: flowlines@civiresources.com
