Flowline System

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and 906.

Operator Information

ECMC Operator Number: 8960 Contact Person: James Miller
Company Name: BONANZA CREEK ENERGY OPERATING COMPANY LLC Phone: (720) 984-7460
Address: 555 17TH STREET SUITE 3700 Email: jmiller@civiresources.com
City: DENVER State: CO Zip: 80202
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes No

FLOWLINE SYSTEM

FLOWLINE SYSTEM IDENTIFICATION
Facility ID Number: 478703 Flowline System Name: BCEI Flowline System
FLOWLINE SYSTEM REGISTRATION
A representative legal location and associated latitude and longitude near the center of the Flowline System.
County: WELD
Qtr Qtr: SENE Section: 26 Township: 5N Range: 63W Meridian: 6
Latitude: 40.371670 Longitude: -104.396120
GPS Quality Value: Type of GPS Quality Value: Measurement Date: 09/12/2013

FLOWLINE DESCRIPTION AND TESTING
Date Construction Completed: 09/15/2020
Pipe Material: Carbon Steel Bedding Material: Native Materials
Max outer Diameter (inches): 2.000 Type of Fluid Transferred: Multiphase
Max Anticipated Operating PSI: 200 Testing Pressure: 2210 Test Date: 09/11/2020

Description of Corrosion Protection:

The potential for internal corrosion in the piping is addressed by sweeping any liquids, mainly water, out of the pipe by pigging the line twice monthly.
External corrosion potential is addressed by ensuring that all buried lines have external coating, with shrink sleeves installed on larger pipe bare joints, and taped joints on smaller pipe. All external pipe coating is tested "jeeped" prior to being installed in ditch.
Galvanic Anodes are frequently installed with buried piping, and flange isolation kits are strategically used where necessary, to optimize effectiveness of cathodic protection.

Description of Integrity Management Program:

BCEOC has a Flowline Integrity Management Plan in place, dated October 2020 that is in compliance with the COGCC 1100 series flowline rules. See attachment.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

The majority of flowlines are not near any known and defined public receptors or road crossings. Those that are, county permits are acquired prior to construction of county road crossings. Permit conditions contain minimum construction requirements.

FLOWLINE SYSTEM ABANDONMENT VERIFICATION

Date: 04/13/2023

Abandonment Verification

The abandoned Flowline System was located within the jurisdiction(s) of the following local government(s).

Jurisdiction	County	Municipality
County	WELD	

Description of Abandonment Verification:

Form 44 submitted to report abandonment verification.

The following flowline was removed:
ANT I-31WP/4/GP Line

All other flowlines statuses in this system will remain as previously reported.

OPERATOR COMMENTS AND SUBMITTAL

Comments Form 44 submitted to report abandonment verification.

The following flowline(s) were removed:
ANT I-31WP/4/GP Line

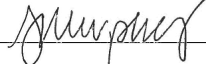

Updated GIS data attached.
All other flowlines statuses in this system will remain as previously reported.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Signed: _____ Date: 10/01/2023 Email: flowlines@civiresources.com

Print Name: Stephany Olsen Title: Sr. Regulatory Analyst

Based on the information provided herein, this Flowline Report complies with ECMC Rules and applicable orders and is hereby approved.
