

# Colorado Environmental Spills or Releases Reporting Form

The Office of Emergency Preparedness and Response within the Colorado Department of Public Health and Environment receives information about statewide incidents which impact the health of Coloradans and our environment. CDPHE develops incident reports and distributes them to state and local authorities to provide awareness for the appropriate mitigation and remediation of the impacted environment, as well as provide public health assistance as needed.

This form should be completed for any type of petroleum product or hazardous materials/waste spill or release or to satisfy any federal or state reporting requirements. **If this is an immediate emergency, call 911.**

Other reportable issues include: Greater than 25 gallons of any petroleum product released to ground only

- Releases to waterways (i.e. storm sewer, creeks, river, lakes, dry waterways)
- Mercury spills and all asbestos releases that meet the reportable quantity
- Sanitary sewer releases
- Deliberate releases (i.e. dumping, burying, etc.)
- Permit exceedances

If you have a reportable issue, continue with the form below and complete with as much information as possible.

If you have an incident to report that does not meet these qualifications, you may want to call your [local public health agency](#). Building issues with mold or pests, or other habitability issues, as well as any restaurant concerns would be handled by your local public health agency.

## REPORTING PARTY INFORMATION

### Reporting party's organization

Town of Frederick  
.....

**Reporting party's first name**

Robert

**Reporting party's last name**

Aronoff

**Reporting party's phone number**

7203825649

**Reporting party's email address**

raronoff@frederickco.gov

Is the *reporting* party the **same** as the *responsible* party? \*

 Yes No**Potentially Responsible Party's (PRP) Information**

Information about the person or entity responsible for the reported incident.

**Responsible party's organization**

K.P. Kauffman  
.....

**Responsible party's name (first / last)**

.....

**Responsible party's phone number**

.....

**Responsible party's email address**

.....

**Responsible party's street address**

.....

**Incident/Spill/Event Details**

Include as many details about the incident as possible to support informed decision-making for an appropriate response.

**Date of incident/spill (month/day/year) \***

MM DD YYYY

09 / 09 / 2025

**Approximate time of incident/spill (MST) \***

(hh:mm am/pm)

Not Sure

**Where did the event occur? (physical address, highway and mile marker, GPS coordinates; legal description. May include nearby landmarks or intersections) \***

40.123109, -105.012885

**County where event occurred (write "unknown" if unsure) \***

Weld

**Is the incident / spill still occurring/active?**

Yes

No

Unknown

**Type of material**

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other: .....

**Approximate quantity of material involved?**

Enter a number or range (*i.e 25 or 25-50*)

.....

**Provide unit measurements (*i.e. gallons, pounds, barrels, cubic feet, etc*)**

.....

**Please select areas affected by the spill (all that apply)**

- Concrete/Asphalt
- Gravel
- Dirt
- Water
- Dry waterway
- Fixed facility
- Air
- None
- Other: .....

If a **waterway** is impacted, please specify the **quantity** and **name** of the storm sewer, creek, river, lake, dry waterway etc.)

Potential waterway impacts, nearby freshwater pond .....

**What was the cause of the incident / spill? \***

Flowline or Pipeline Failure .....

**Detailed description of source (if applicable)**

Oil daylighting at the surface is approximately 80 feet away from a previous release along what is assumed as the same flowline. ....

**Who responded to the incident? (include name, phone and/or email if possible)**

Robert Aronoff, the Oil and Gas Liaison for the Town of Frederick received a resident complaint on 9/9/2025. Reported to ECMC, currently it does not appear that there has been any response to that complaint filed.

**What, mitigation actions, if any, have been taken?**

NONE

**Add any additional details about the incident or an associated permit number (if applicable)**

This is a relatively large release judging on the size and amount of surfacing oil

**Was there a second material?**

Yes

No

**Second Material**

**Type of material**

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other: .....

**Approximate quantity of material involved? (an exact number or range)**

.....

**Provide unit measurements (i.e. gallons, barrels, cubic feet, etc)**

.....

**Additional details about the 2nd material (specify)**

.....

**Was there a third material?**

- Yes
- No

**Third Material**

**Type of material**

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste (Oil production)
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other: .....

**Approximate quantity of material involved? (an exact number or range)**

.....

**Provide unit measurements (i.e. gallons, barrels, cubic feet, etc)**

.....

**Additional detail about the 3rd material (specify)**

.....

**Do you have any additional information or comments?**

.....

***Form submission date and time will auto-generate upon submission.***
