**Subject:** Baja Ranch Unit 1 Well - Re-Plug Operations

Hi Jason,

There is an existing P&A'd well on the City of Aurora's property that we'd like to access and re-plug. This is a safety measure to ensure the well is not impacted by our nearby horizontal wells during our fracking process. The well is the Baja Ranch Unit 1 Well originally operated by Calvin Petroleum. It was plugged and abandoned back in 1978. Below is an image of the property and the location of the well for reference.

Please let me know if you are ok with us accessing the property and re-plugging the well to meet current regulations and standards.

Best,

Trevor Walker, CPL  
Advisor Land Negotiator
