---

Hi Joseph,

I dont have any concerns with the timing of this P&A as proposed w/ BMPs. I have cc'd DWM Erin Priest and Aquatic Biologist Matt Haworth in case they have any comments or concerns for this location.

Thank you,

Andrew Newman

Hey Andrew,

I have another random one. We need to do a re-entry on a well. This will be a form a 6 submittal. The location is the Baja Ranch Unit 1 (05-123-09448). Does CPW have any concern with the work proceeding?

Aquatic Native Species Conservation Waters: Straw waddle will be used to control stormwater flow leaving location. Secondary containment will be placed around tanks.
