COMMENTS

The previously provided Form 4 (Doc # 400919306) Baseline Groundwater Sampling Notice for the Mesa P2-797 well pad (Location ID 335017) indicated an intermittent spring is located within one half mile west of the well pad. This spring (Sample Site ID 753920, Location Name SWNW27S97W) does not meet the ECMC 100 Series definition of water source as it is an intermittent, non-permitted or adjudicated spring.

DWR Receipt 48146 is an application for a monitoring well which has no location information, and appears to have expired rather than being installed by the applicant.

Based on the status of the spring and monitoring well, QB Energy is providing this Form 4 Sundry to update the exception requests from 3 to 4 for the Mesa P2-797 well pad.
