to me

Dear Ms. Greager,

On behalf of Evergreen Natural Resources LLC, I would like to thank you and the ECMC for bringing this matter to our attention. We appreciate the opportunity to address the concerns outlined in Warning Letter #404361481 regarding Rule 208. chemical disclosure requirements.

We have reviewed the issues identified and can confirm that all outstanding disclosures have now been corrected and properly submitted. The circumstances leading to this oversight occurred during a transitional staffing period at Evergreen, and we acknowledge that timely compliance was not maintained in this instance.

Since that time, Evergreen has implemented enhanced internal procedures to ensure future compliance. Specifically, we have established new internal tracking systems and compliance review processes designed to verify that all Rule 208. disclosures are submitted to FracFocus within the required timeframe. These controls are now fully operational, and we do not anticipate any further oversights of this nature.

We value the Commission's oversight and remain committed to full regulatory compliance. Please accept our thanks for your guidance and for working with us to maintain responsible operations in Colorado.

Sincerely,

Brandon Brekke  
Nico Avila
