Detected Leak on Operator's CDPHE/AQCC Reg 7 Delayed Repair List	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>

*Please note individual wells may fall into more than one Category of Interest

Describe the Operator's compliance with the timelines in Rule434.d.(4).

We have 4 more wells on our OOS list to plug by 2027. Our most recent plugged well, Wollert B3, had a cut and cap date of 3/15/24. We currently have a Form 6-I submitted for approval for the Stark well and once approved, plan on plugging it this summer. That will leave 3 wells left to plug by 2027 that are on our OSS list. In addition to plugging these wells, we are working on having our previously plugged wells pass final inspection for reclamation. This past year, we got one of our previously plugged wells, Ward #1-30, passed on 10/14/24. We are doing additional work on the Warne Templin #1-29 well with a goal of getting it to a point of passing final reclamation this year, in addition, we plan to work on the Wollert B well, and the others on our list with outstanding final inspections to pass.

OPERATOR COMMENT AND SUBMITTAL

I hereby certify all statements made on this form are, to the best of my knowledge at the time of submittal, true, correct, and complete.
