Gentlemen,

A field inspection of your Boersma lease in July 1986 seems to indicate the well has been plugged. This office has no record of your filing an intention to plug and abandon this well.

Please help to clarify the situation by replying. ~~To~~ Indicate if the well was plugged, how the work was done, approval for work, ^{cement verifications} and plans to rehabilitate the site.

Ltr not sent.

Yours truly

D. B. or J. M.
