Mr. J. F. Lueders, Vice President
Massachusetts Bonding & Insurance Co.
Capitol Life Building
Denver, Colorado

Dear Mr. Lueders:

Re: E. W. Forbes - Bond of Oil and Gas Operator
for Drilling Operations on Patented Land
C-647248 - 60407 - Twp 9N, Range 55W
Center SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 15

In reference to our file, it indicates that we wrote you on March 22nd in reply to your letter of March 21st and advised you then that the information regarding the abandonment of the well had not been received and that the cancellation of the bond cannot be made until this is completed. I suggested in that letter that we do not know whether the well in that area is producing, in which case the bond must continue.

I am writing a letter to Mr. Forbes this morning addressed to Box 211, Rangely, Colorado as suggested by you on the telephone. Maybe his reply will help clear this matter up.

Yours very truly,

JEC:LHB

John E. Cronin, Secretary
Colorado Oil & Gas
Conservation Commission
