Re: Christianson #3
Application for Permit to Drill
Exception to Statewide Rule #318

Dear Sir:

You have requested Gulf to grant you a waiver of objection to your drilling the Christianson #3 at a point 330' NSL and 600' EWL of Section 22-T3S-R50W, 6th P.M., Washington County, Colorado. Gulf does hereby waive Objection subject to the following conditions:

1. You agree to grant a similar waiver of objection to Gulf for a location 330' SNL and 600' EWL of Section 27-T3S-R50W, 6th P.M., Washington County, Colorado, should one be requested at a later date.
2. You drill Christianson #3 in a manner that will prevent encountering the "J" Sand at a point closer than 200' from the south line of Section 22. Certified evidence of this stipulation, such as a directional survey or other accepted evidence, plus Electrical logs, if run, will be furnished Gulf upon completion of this well.

If you are agreeable to these stipulations, please sign this letter in the place indicated below and return the original to Gulf Energy & Minerals-U.S.

Very truly yours,

J. D. Richards

I accept the conditional waiver and the two stipulations as proposed by Gulf Energy & Minerals-U.S.:

A. T. Skaer
