
Re: Consultation Requests (Spreadsheet)

From Lilah Huning <lhuning@civiresources.com>

Date Fri 10/31/2025 11:04 AM

To Newman - DNR, Andrew <andrew.newman@state.co.us>

Cc Cassandra Penn - DNR <cassy.penn@state.co.us>; Jackson Davis - DNR <jackson.davis@state.co.us>; Marette - DNR, Brandon <brandon.marette@state.co.us>

Thank you, Andrew. I have left voicemails for Cassy and Jackson in case they would like to discuss anything. We will move forward with the necessary paperwork in the meantime.

Have a nice weekend,

Lilah Huning

Subject: Re: Consultation Requests (Spreadsheet)

Thank you Lilah for the update and consultation here.

I do not have any concerns with these plug and abandon efforts as proposed with BMPs.

Cassy and Jackson are in the thick of hunting seasons so they may not be able to reply quickly here. You may want to reach out to them with a quick phone call to confirm with them any questions or concerns.

Thank you,

Andrew Newman

Good afternoon, Andrew,

I have added one additional location (in Jackson's district) to this consultation list - please find the updated spreadsheet attached. Please let me know if you have any questions.

Thank you!

Subject: Consultation Requests (Spreadsheet)

Good morning Andrew,

Please find a list of consultation requests attached for your review. Cassy Penn and Jackson Davis are the DWMs associated with these areas, so I have copied them here.

Please feel free to reach out anytime if you have questions.

Thank you!

CPW DWM	Estimated Start Date <small>(subject to change)</small>	Well Name	Job Type	API Number	TRS	Lat/Long	Loc ID	HPH Information	Proposed BMP	Other Notes
Cassy Penn	November 2025	Edith Ann 33-21 Flowline Edith Ann 1-2 Offsite Sales Line	Line removal / decommissioning	n/a	2N 68W Sec 21	40.122520, - 105.005080	434303	Bald Eagle Roost	Operations will be conducted outside the bald eagle roost season (Nov 15 - Mar 15) as much as possible. For any operations that cannot be completed outside the roost season, at least two non-consecutive roost surveys (one AM and one PM), separated by approx. one week, will be conducted: if no roosting is observed, work will proceed as normal; if roosting is observed within 1/2 mile, operations will be limited to two hours post-sunrise to two hours pre-sunset.	Decommissioning operations at this location can only occur outside the crop season, so partial overlap with the roost season will likely be necessary.
Cassy Penn	March 2026	INTERCHANGE B S22-30-17N	P&A and subsequent ops (if applicable)	05-014-20782	1S 68W Sec 10	39.978184, - 104.991032	456747	Bald Eagle Active Nest	The previously mapped eagle nest is no longer present (verified and confirmed by CPW on 9/16/25). The Operator will survey for new eagle nest sites within 1/2 mile of this location prior to operations and will consult CPW if any are observed.	
Jackson Davis	April 2026	NORTH PLATTE 41-34 NORTH PLATTE 42-34	P&A and subsequent ops (if applicable)	05-123-30518 05-123-35676	5N 63W Sec 34	40.36136, - 104.41506	413974	Bald Eagle Roost Mule Deer Winter Concentration Area	Operations are currently scheduled to occur outside the bald eagle roost season (Nov 15 - Mar 15) and outside the majority/core of the mule deer winter season (Dec 1 - Apr 30). If operations cannot be completed outside the roost season, at least two non-consecutive roost surveys (one AM and one PM), separated by approx. one week, will be conducted: if no roosting is observed, work will proceed as normal; if roosting is observed within 1/2 mile, operations will be limited to two hours post-sunrise to two hours pre-sunset.	Timing note: due to highly suitable nesting habitat in the area (along the river) and long sample processing times during post-P&A operations, the Operator would like to begin work as soon as possible after the roost season (overlapping end of big game season), prior to most species' nesting seasons.
Jackson Davis	April 2026	NORTH PLATTE 34-34 NORTH PLATTE 33-34	P&A and subsequent ops (if applicable)	05-123-35300 05-123-35297	5N 63W Sec 34	40.34904, - 104.42329	428267	Bald Eagle Roost Mule Deer Severe Winter Range	Same as above	Same as above
Jackson Davis	Dec 2025	VAN WYKE	Equipment decommissioning / reclamation	n/a	5N 63W Sec 32	40.363015, - 104.463737	453322	Aquatic Native Species Conservation Waters	Operations will not extend into the water channel. Standard Stormwater/SPCC protocols will be followed.
