In accordance with your request we are attaching copy of the driller's log on our #1 State Well which we drilled in the NW/4 NW/4 NE/4 of Sec. 16-3S-50W, Washington County, Colorado. This well was drilled to a total depth of 4300' and was plugged and abandoned June 1, 1951. The bottom of the hole was plugged with twenty sacks of cement, the hole was filled with mud and a cement plug was run in the top of surface pipe. We are not familiar with the reports required by the State of Colorado and would appreciate receiving a supply of blank forms if reports are required for Notice of Intention to Drill, Completion Reports or Plugging and Abandoning.

note

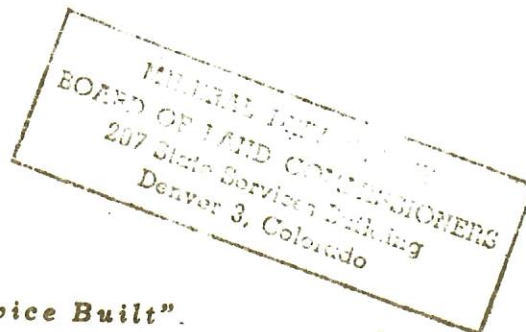

Yours very truly,

SERVICE DRILLING CO.
