**General Comment:**

On 10/28/2025, NW Reclamation Specialist Emily Gaasche conducted a final reclamation inspection at SWN Production Company LLC's BOSTON FEDERAL-67N93W/2NWSE location in Moffatt County, Colorado. The location is Fed Minerals.

It was observed in this inspection that reclamation has not been completed pursuant to 1004 requirements.

The following compliance issues were observed during this inspection:

- Access road has not been reclaimed
- Utility equipment remaining
- Weeds
- Signage present
- Sediment trap remains
- Vegetation uniformity

Refer to the Reclamation and COGCC Comments section of this report for additional details.

Refer to the photo-documentation attached to this report for additional details.

Any outstanding CA's from previous inspections remain applicable.

Conduct reclamation on the location/road in accordance with 1004 rules including, but not limited to: removal of utility equipment, removal of gravel, compaction alleviation, recontour/regrade and establish vegetation with total perennial, non-invasive uniform plant cover of at least 80% of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district.

Comply with Rule 1002.f and ensure erosion controls are implemented to stabilize the seeded soil.

Comply with Rules 1004.e and 606.c: Oil and Gas Locations will be kept free of all Undesirable Plant Species.

Ongoing stormwater and weed management required until Final Reclamation has passed.

Overall Final Reclamation **Fail** Well Release on Active Location  Multi-Well Location

**ECMC Comments**

Comment	User	Date
<p><b>RECLAMATION COMMENTS:</b>                      Pursuant to Form 6(s) #401787677, well API #05-081-07350 was plugged and abandoned on 10/05/2018. Form 4 #402466716 stating final reclamation complete was received by ECMC on 08/14/2020.</p> <p>The location is primarily composed of intermediate wheatgrass with secondary to tertiary amounts of smooth brome, big sagebrush, rubber rabbitbrush and tansyasters. Scotch thistle, a List B noxious weed, is present throughout the location. It does not appear as though weeds have been managed in 2025. Some portions of the location are not progressing towards 1004 reclamation requirements and it appears as if compaction issues may be evident; vegetation is not uniform. It was also observed that species planted do not reflect species within the adjacent undisturbed reference areas, or vegetation that existed pre-disturbance.</p> <p>Stormwater BMPs/berms are present at the southern end of the location.</p> <p>Utility equipment that is no longer in use remains at the location. Utility equipment is associated with the O&amp;G Location for O&amp;G operations, and the corrective action requirements for removal remains applicable. It is the ECMC's expectation that SWN will coordinate with the equipment's owner for removal.</p> <p>The access road on the northeast end of the location has not been reclaimed in accordance with ECMC 1004 Rules. Within areas of the access road where work is evident (road at location entrance), Operator appears to have seeded directly on the road; gravel/compaction evident.</p> <p>Pursuant to Rule 1004.a, all debris, abandoned gathering line risers and flowline risers, and surface equipment shall be removed within three (3) months of plugging a well. All access roads to plugged and abandoned wells and associated production facilities shall be closed, graded and recontoured. Well locations, access roads and associated facilities shall be reclaimed. As applicable, compaction alleviation, restoration, and revegetation of well sites, associated production facilities, and access roads shall be performed to the same standards as established for interim reclamation under Rule 1003. All other equipment, supplies, weeds, rubbish, and other waste material shall be removed. All such reclamation work shall be completed within twelve (12) months on non-crop land after plugging a well or final closure of associated production facilities.</p>	gaaschee	11/03/2025
