Location ID: 323257

Photo 3. Drone aerial imagery taken south of well location, facing north (displaying the well and access road).

Photo 4. Drone aerial imagery taken west of well location, facing east (displaying the well and access road).

Photo 5. Drone aerial imagery taken north of well location, facing south (displaying the well and access road). Note: Historical imagery suggests line of stunted crop growth is not related to oil and gas. Crop vegetation at plugged well and access road appears consistent with adjacent reference areas.

Photo 6. Drone aerial imagery taken east of well location, facing west (displaying the well and access road).

Photo 7. Drone aerial imagery taken northeast of well location, facing southwest (displaying the well, access road, and presumed flowline location).

Photo 8. Drone aerial imagery taken southwest of the tank battery location, facing northeast (displaying the tank battery and presumed flowline location). Tank battery remains for the Shut in Starck 33-18X well, API 123-26268.
