Oil and Gas Conservation Commission  
Room 312, State Services Building  
1525 Sherman Street  
Denver, Colorado 80203

Attention: Mr. D. V. Rogers

Gentlemen:

In reply to your letters of February 17, 1966, requesting plugging records covering the Hoyer-Federal No's. 4 & 5, Section 27-9N-78W, Jackson County, Colorado, these wells have not been plugged.

At the time we notified you they were to be plugged, it was intended to move in and plug them right away. The weather got bad, however, and it probably will be around the middle of April before it can be accomplished.

I apologize for the delay in answering your letters. They got covered up on my desk and have just been uncovered.

I will see that you are furnished proper plugging records when the wells have been plugged.

Very truly yours,

KINGWOOD OIL COMPANY
