**General Comment:**

On 10/29/2025, Northwest Reclamation Specialist Maxwell and Routt County Planner Fitz, conducted a final reclamation inspection at True Oil's Breeze Unit 23-15 Location in Routt County, Colorado.

The Location is on Fee Surface and is in black bear habitat. In addition, the Location is in the following HPH: Rule 1202.c. NSO for Columbian Sharp Tailed Grouse Lek site; rule 1202.d. density for: Columbian Sharp Tailed Grouse production area, Elk severe winter range, Elk Winter Concentration area, and Mule Deer Migration Corridor; Rule 309.e.1. for Columbian Sharp Tailed Grouse Winter Range, and Greater Sage grouse general habitat management.

The following compliance issues were observed in this inspection:

- Weed Management
- Final Reclamation on access road

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective actions from previous inspections that have not been addressed remain applicable. Any new corrective actions without corrective action dates, requires that the Operator comply with the Rules as soon as possible or when environmental conditions permit. Location will remain out of compliance until corrective action(s) has (have) been resolved and a follow up inspection will be conducted to ensure the compliance issues have been corrected to comply with ECMC rules.

Comment:

It was observed in this inspection that reclamation appears to be progressing towards a vegetation standard of 80%, however it is noted that the area had been harvested. In addition, the access road remains evident; indicating re-contouring, compaction alleviation, and re-vegetating has not been performed, or that compaction issues remain and require addressing pursuant to Rule 1003.c. Reclamation is in process. Undesirable plant species (Russian Thistle, houndstongue, cheatgrass, and Canada thistle) were observed on the the Location and access road.

No subsidence was observed on the Location, however some bare spots were apparent on the previous pad. A future inspection will need to be conducted at the Location during the growing season.

Corrective Action: **Comply with 1004 Rules. Conduct weed management to prevent further establishment and spread of Noxious Weeds; ongoing weed management required until location passes final reclamation.**
