## Operator Best Management Practices

<u>No BMP/COA Type</u>	<u>Description</u>

**Operator Comments:**

In response to Notice of Alleged Violation Number 404310203:

Additional staff augmentation is occurring along with the development of specific Standard Operating Procedures (SOPs) related to form review and data integrity. As part of this, we also implemented an additional step in the review process in February 2025 to ensure that all forms are QA/QC'd by a Noble representative prior to submission to ECMC. Additional contractor resources have been added to assist with Form 27 review and to improve consistency and accuracy. We also have hired a 3rd party consultant to do an independent audit of our laboratories and environmental consultants with the goal of providing more streamlined processes, consistency across all labs and environmental consultants and conducting an independent QC of forms and lab results. Finally, as of February 2025, we have implemented the secure lab data process as outlined in ECMC's Notice to Operators - Data Integrity Practices issued on 4/8/25 that will help to prevent future occurrences of this type of error.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
