

JAVERNICK OIL, LLC
Operator No. 44390
Form 6 Compliance
Standard Operating Procedure

Javernick Oil, LLC (Javernick) shall review Rule 434.a.(5) Plugging Requirements prior to plugging operations and follow and require third-party service contractors to comply with COA's on the Form 6 Intent approval.

After cutting surface string 4' below ground level, Operator will wait a minimum of 5 days to cap or seal the Well, or cap the Well after the 90 day period following the placement of the last plug. After cut and prior to cap, Operator will verify isolation by either a 15 minute bubble test or 15 minute optical gas imaging recording. Operator will contact ECMC Engineering if there is indication of flow.

Operator will review all COA's prescribed in the Approved Form 6 Intent to P&A and a written documentation will be attached on the Form 6SRA which will describe how each COA was addressed. A statement of isolation method (15 minute bubble test or 15 minute optical gas imaging) will also be included to describe what was observed.
