Re: Convert abandoned
gas well to water
well

State of Colorado
Department of Oil & Gas Conservation
Denver, Colorado

Gentlemen:

This is to notify you of my desire to convert the abandoned Franson #1, Section 26, 10N, 47W, Sedgwick County, Colorado, completed by E. Lyle Johnson as a gas well and now depleted, to a water well.

I own the surface, and will accept the responsibility of this well, including final plugging in the event I wish to discontinue the use of this well.

I also understand that I will have to file on this well with the State Engineers office.

Clem Price
