Off-Location Flowline

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and 906.

Operator Information

ECMC Operator Number: 10725 Contact Person: Tyson Dunham
Company Name: VALKYRIE OPERATING LLC Phone: (303) 388-2290
Address: 1600 STOUT STREET SUITE 1000 Email: tdunham@valkyrieoperating.com
City: DENVER State: CO Zip: 80202
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes [X] No [ ]

OFF LOCATION FLOWLINE

FLOWLINE ENDPOINT LOCATION IDENTIFICATION

Location ID: 314888 Location Type: Well Site
Name: UNITED STATES B-62N102W Number: 25NENW
County: RIO BLANCO
Qtr Qtr: NENW Section: 25 Township: 2N Range: 102W Meridian: 6
Latitude: 40.119476 Longitude: -108.793873

Description of Corrosion Protection

Pea gravel bedding.

Description of Integrity Management Program

Line was integrity tested in 2018 and was decommissioned, purged, and capped in 2020. Valkyrie operating also performs annual integrity testing using pumping units for all flowlines connected to producing wells.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

**Flowline Description and Testing**

Type of Fluid Transferred: Multiphase Pipe Material: Carbon Steel Max Outer Diameter:(Inches) 2.000

Bedding Material: Pea Gravel Date Construction Completed: 05/01/2012

Maximum Anticipated Operating Pressure (PSI): Testing PSI: 200

Test Date: 04/01/2018

**OPERATOR COMMENTS AND SUBMITTAL**

Comments Per the RTD comment, the flowline location map has been updated to a .SHP format. The previous PDF has been re-attached for added reference. Additionally, the corrosion protection and integrity management plan information has been filled in.

This flowline has been inactive and was purged and capped at the time of the P&A of the associated well in 2020. This form was submitted on 02/12/2024 and was intended to retroactively register this flowline so that a subsequent Form 44 could be immediately submitted to abandon this decommissioned flowline. As mentioned on Form 6-Subsequent Doc# 403650265, the final reclamation of the location has not taken place because of an issue with federal approval that includes multiple wells.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
