ECMC Field Inspection Report Summary

This is an environmental inspection to determine progress on Spill ID 490147 and Remediation Project # 490147. Any corrective actions from previous inspections, NOAVs and/or conditions of approval from previous forms that have not been fully addressed are still applicable. There were no operator or contract environmental personnel on location at the time of this field inspection. Photos attached to document site conditions.

Site/Spill Name: Herman L 32-13 JI Flowline

Spill ID: 490147

Remediation Project #: 38245

Well API #: 05-123-19891

Reported Date of Discovery: 5/7/2025

Date of Inspection: 12/04/2025

Weather: Foggy, 17°F

Current site status:

Due to access and visibility limitations, the exact spill location and flowline path were not inspected. The field surrounding the flowline was inspected from the southwestern corner; crops have been harvested and the field is covered with snow.

See attached corrective actions.

Facility ID: 490147 Type: SPILL OR API Number: - Status: CL Insp. Status: EI

The subreport 'InspWellFlowline' could not be found at the specified location \\10.14.12

**Environmental**

**Spill/Remediation:**

Comment: Remediation Project # 38245 was created for decommissioning of the Herman L 32-13 JI well and flowline. Spill ID 490147 was created to address the remediation of impacts identified at the flowline riser at the separator. Due to access and visibility limitations, the exact spill location and flowline path were not inspected. The field surrounding the flowline was inspected from the southwestern corner; crops have been harvested and the field is covered with snow.

Quarterly reporting is required under Remediation Project # 38245. The last Form 27 for this project was submitted 11/10/2025 and was denied by ECMC on 12/04/2025 due to the Operator reporting that additional investigation was pending crop harvest (Document # 404381637); a replacement Form 27 has not been received as of 12/8/2025.

Corrective Action: In accordance with Rule 913.e.(3), Operator will adopt and maintain a quarterly reporting schedule (90 days). Operator shall provide a replacement Form 27 for Remediation Project # 38245. Date: 12/04/2025
