Location ID: 323248

Photo 1. Photo taken of the well location, facing north. Photo illustrates that final reclamation activities have taken place, but vegetation has not established to Rule 1004 standards as weedy annual vegetation including kochia (*Bassia scoparia*) was observed at the eastern portion of the multi-well location. The access road remains in place for a TA well location.

Photo 2. Photo taken of the well location, facing east. Photo illustrates that alfalfa has not established to reference area conditions at this portion of the location.
