FIELD INSPECTION FORM

Loc ID 336021 Inspector Name: Gaasche, Emily On-Site Inspection 2A Doc Num: _____

Status Summary:

- THIS IS A FOLLOW UP INSPECTION
- FOLLOW UP INSPECTION REQUIRED
- NO FOLLOW UP INSPECTION REQUIRED

Operator Information:

ECMC Operator Number: 96850
Name of Operator: TEP ROCKY MOUNTAIN LLC
Address: 1058 COUNTY ROAD 215
City: PARACHUTE State: CO Zip: 81635

Findings:

- 6 Number of Comments
- 1 Number of Corrective Actions
- Corrective Action Response Requested

ANY CORRECTIVE ACTION(S) FROM PREVIOUS INSPECTIONS THAT HAVE NOT BEEN ADDRESSED ARE STILL APPLICABLE

ECMC Comments

Comment	User	Date
<p>Reclamation Comments:</p> <p>Interim areas were reseeded in 2020 (FIRR #402398630). It was observed in this inspection that perennial, desirable, and uniform vegetation establishment appears to have failed throughout most of the location.</p> <p>Interim areas are dominated by kochia, prickly Russian thistle, cheatgrass and undesirable annual weedy species such as annual wheatgrass. Desirable, perennial and uniform vegetation pursuant to 1003 series rules is not evident throughout most of the location. Eastern interim areas have perennial, desirable and uniform vegetation that established and appears to be progressing towards 1003 reclamation requirements. The western and northern interim areas do not appear to be progressing towards 1003 reclamation requirements. Additional reclamation efforts pursuant to 1003 reclamation rules is required.</p> <p>Reseeding with species consistent with the adjacent plant community is encouraged. In the absence of an agreement between the operator and the affected surface owner as to what seed mix should be used, the operator shall consult with a representative of the local soil conservation district to determine the proper seed mix to use in revegetating the disturbed area.</p> <p>Weed management should be conducted during the time of year when treatment efforts are most effective; a follow-up inspection will be conducted during the 2026 growing season to evaluate weed control efforts at the location. Ongoing weed management is required throughout interim areas at the location.</p> <p>This inspection was conducted during the dormant season; a follow-up inspection will be conducted during future growing seasons in order to fully assess vegetation, reclamation efforts throughout the interim areas and to evaluate compliance with 1003 series rules.</p>	gaaschee	12/17/2025
