Re: Request for Exception Location Waiver
#2 Wavetech Hadacheck Trust 24-14 Well
Township 13 South, Range 42 West, 6th P.M.
Section 14: SESW
Cheyenne County, CO

Dear Wavetech Helium,

Wavetech Helium Inc. (Operator No. 10791) proposes to drill and develop the following vertical Wells targeting Helium in the Morrow V-3 Sandstone Formation pursuant to the Colorado Energy & Carbon Management Commission (ECMC) regulations, as described below (the "Wells") and further described on the attached maps:

Well Name	Location to Unit Boundary
#2 Wavetech Hadacheck Trust 24-14 Well	>1,000' from the northern, eastern and western unit boundaries- 891' from the southern unit boundary

Wavetech will utilize the approximate 320-acre drilling and spacing units established by Spacing Order 477-3, effective as of March 18, 1996, to drill and develop the #2 Wavetech Hadacheck Trust 24-14 Well to develop helium resources. Order No. 477-3 provides that the permitted well shall be located no closer than 1,000-feet from the boundaries of the drilling and spacing unit and no closer than 2,640-feet to the nearest well permitted to, drilling to, completed in or producing from the Morrow V-3 Sandstone or stratigraphically shallower Morrow sandstones.

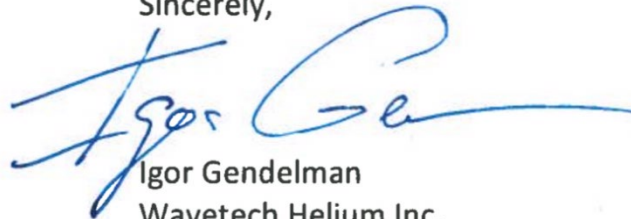

ECMC Rule 401.c. provides that Operators may request in writing from the Director an exception to the Well completion location requirements of any order because of geologic, environmental, topographic, or archaeological conditions, irregular sections, a Surface Owner request, or for other good cause shown. Rule 401.c further provides that the Operator will submit the written exception location request and waivers pursuant to Rule 401.c.(2).B, as attachments to the Form 2, Application for Permit to Drill. Wavetech is the Owner of the minerals of section 23 and can self waive Rule 401.c.(2).

Pursuant to Rule 401.c., Wavetech is seeking an exception location and associated waiver from you to move forward with the siting of the Well as proposed. Based on the targeted Helium channel for the Wells, the location of the Wells in relation to the Section line will not produce

hydrocarbons from your interests and the exception will not negatively impact your correlative rights.

For these reasons, and pursuant to Rule 401.c., Wavetech respectfully requests your consideration of an exception location waiver of the location for the Wells. If you agree to such waiver, please indicate by executing the waiver below.

Sincerely,

Igor Gendelman
Wavetech Helium Inc.

I, Igor Gendelman as Vice President, on behalf of Wavetech Helium, Inc., as the 100% mineral owner offsetting the proposed #2 Wavetech Hadacheck Trust 24-14 Well, hereby voluntarily waive the 1,000-foot well location setbacks established by Order No. 477-3 for the #2 Wavetech Hadacheck Trust 24-14 Well.

Accepted and agreed to this 15th day of July, 2025.

Name: Igor Gendelman

Title: Vice President
