Re: North Johnson Hill Field  
Township 8N, Range 54W,  
Logan County, Colorado

Falcon Seaboard Drilling Company  
Pan American Building  
Tulsa, Oklahoma

Gentlemen:

On our John Svacina Lease in the SW $\frac{1}{4}$  of Section 7, Township 8N, Range 54W, Logan County, Colorado, we are proposing to drill our No. 2 well 1300' from the south line and 330' from the east line of the SW $\frac{1}{4}$  of said Section 7, Township 8N, Range 54W to the Third Dakota "J" Sand at 5450'. Our records indicate that you are the operator of the lease on the SE $\frac{1}{4}$  of Section 7.

As you well know this Field has been developed on twenty acre density and Rule 317 of the Colorado State Rules with regards to the location of wells provides that wells must be located not less than 600' from the property line and since this location is closer than the required State Rule, we are respectfully requesting a waiver from you as owner of the lease toward whom the proposed location is to be moved.

For your convenience we are herewith attaching three copies of Waiver with the request that you retain one for your file and return two copies to the undersigned at your earliest convenience.

Yours very truly,

(Signed) GEORGE W. SELINGER
