Dear Sirs.

In 1948 the Wagner Drilling
and Production Co abandoned
two partly completed oil
well holes and did not
cover the holes. We put some
timbers over them. The one
hole is 1500 ft. + the other
about 135 they are large
enough for a child to
fall into or animals. These
holes are 1/8 mile from our
house and people walk
over there without our
consent but they should
be closed. We have been told
there is a law that they
be closed.
