Details of Plan of Work: (State names of and expected depths to objective sands: Show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

Our present plans call for changing from a Standard to a Rotary Rig using approx. 140 Ft. of 10 3/4" surface casing to be cemented outside top to bottom. The contract calls for Oil and or Gas or the Sundance sand or 7000 Ft. with 5 1/2" 17 pound casing and moving the location directly south just far enough to get room to work, of which you will be further advised.
