Department of Natural Resources

Inspection Photos
Location Name: DRY CREEK #1
Location ID: 320307

Photo 1. Looking west down the access road. The access road remains on location. The former tank battery was located to the south of the access road. Desirable vegetation appears to be progressing towards 80% of the reference area on portions of the tank battery.

Photo 2. Looking south across the storage tank area of the tank battery. Desirable vegetation appears to be progressing towards 80% coverage of the reference area.

Inspection Photos
Location Name: DRY CREEK #1
Location ID: 320307

Photo 3. Looking east across the former storage tank area. See photo 2 comments.

Photo 4. Picture taken at the west side of the tank battery location. Pipe riser and meter remain on location.

Inspection Photos
Location Name: DRY CREEK #1
Location ID: 320307

Photo 5. Looking north across the wellbore location. Debris and equipment unrelated to oil and gas are present on the wellbore location. Desirable vegetation appears to be progressing towards 80% of the reference area.

Photo 6. Looking east from the wellbore area. See photo 5 comments.

Inspection Photos
Location Name: DRY CREEK #1
Location ID: 320307

Photo 7. Looking south from the wellbore area. See photo 5 comments.

Photo 8. Reference vegetation to the west of the location.

Inspection Photos
Location Name: DRY CREEK #1
Location ID: 320307

Photo 9. Google earth aerial imagery taken 09/2020. It appears that a new access road was created/ extended from the location after site closure. Additionally it appears that this access road is the only access to the parcel.
