Attention: Mr. P. F. Mork

RE: #1 State
C NE SW Sec. 15-8N-54W
Logan County, Colorado

Dear Mr. Mork:

Reference is made to our telephone conversation relative to the well which we drilled in the above described location. This well is located in unorthodox spacing and we received approval from the State of Colorado to drill a "D" Sand test only.

We have subsequently completed the well as a commercial "J" Sand producer, and in order to market the oil it is necessary that we obtain a release from your company as offset producing lease owners. Any consideration you might grant us in this matter will be appreciated.

Should your plans materialize to be in Denver next week, we would appreciate conferring with you regarding this matter.

Very truly yours,

Tidal Oil Co.

C. A. Kniffin, President
