**General Comment:**

ECMC Inspection Report Summary  
 On Monday 1/6/2026, I, Inspector Scott Ramsey, conducted a routine/audit inspection at TEP Federal 21 B, at Location # 437879 in Garfield county Colorado.  
 While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area and 411 water protection. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.  
 During this inspection the following compliance issues were observed:

1. Faded well head signs
2. ECD is now unused equipment (not hooked up) Stainless line is hooked up but main 3 inch line from tanks is gone.
3. Some areas of the location show signs of lack of stabilization/compaction

Refer to photograph of observed compliance issue.  
 A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.  
 This is a summary of inspection report.
