Re: Request to access State land
State 1 well, 1N-64W-16
API 05-123-11050

Dear Mr. Freese,

Verdad Resources would like to request permission to access the surface of Section 16 Township 1N Range 64W in order locate and plug said well.

Verdad Resources intends to locate, re-enter and re-plug the Well, in accordance with the DJ Basin Horizontal Offset Policy, as set forth by the Energy and Carbon Management Commission ("ECMC").

The Well will be plugged in accordance with the lease rights granted by the State of Colorado. A 100' x 100' area surrounding the surveyed location of the Well, will be designated as the disturbance area. Once the Well is located a 150' x 150' pad will be designated as the pad location for plugging operations. If the well cannot be located in the 100' x 100' disturbance area Verdad Resources will cease operations and contact the State Land Board to discuss further efforts to locate the well.

Upon review of oil and gas lease no. OG 108620, Verdad Resources has determined that there are not biologic lease stipulation associated with the mentioned lease. However, Verdad Resources intends to accommodate any timing or location issues that may affect its plugging operations.

Enclosed please find a satellite photo depicting the potential location of the State I well located in Section 16, 1N-64W. A surveyed plat will be provided once it has been completed by the survey company. Please let us know if you would like to set up a consult to view the pad site. Should you find the location satisfactory, please sign and return the attached acknowledgement. If you have any questions, please do not hesitate to call or email me.

Sincerely,

Allison Schieber

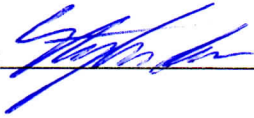

Sr. Regulatory Analyst

Verdad Resources

aschieber@verdadresources.com

I hereby acknowledge receipt of the satellite photo depicting the potential location of the State 1 well in Section 16, 1N-64W. I find the location to be satisfactory and approve of the well to be re-entered and plugged.
