

Colorado Environmental Spills or Releases Reporting Form

The Office of Emergency Preparedness and Response within the Colorado Department of Public Health and Environment receives information about statewide incidents which impact the health of Coloradans and our environment. CDPHE develops incident reports and distributes them to state and local authorities to provide awareness for the appropriate mitigation and remediation of the impacted environment, as well as provide public health assistance as needed.

This form should be completed for any type of petroleum product or hazardous materials/waste spill or release or to satisfy any federal or state reporting requirements. **If this is an immediate emergency, call 911.**

Other reportable issues include: Greater than 25 gallons of any petroleum product released to ground only

- Releases to waterways (i.e. storm sewer, creeks, river, lakes, dry waterways)
- Mercury spills and all asbestos releases that meet the reportable quantity
- Sanitary sewer releases
- Deliberate releases (i.e. dumping, burying, etc.)
- Permit exceedances

If you have a reportable issue, continue with the form below and complete with as much information as possible.

If you have an incident to report that does not meet these qualifications, you may want to call your [local public health agency](#). Building issues with mold or pests, or other habitability issues, as well as any restaurant concerns would be handled by your local public health agency.

REPORTING PARTY INFORMATION

Reporting party's organization

KP Kauffman
.....

Reporting party's first name

Cullen

Reporting party's last name

Chew

Reporting party's phone number

2059144843

Reporting party's email addressIs the *reporting* party the **same** as the *responsible* party? * Yes No**Potentially Responsible Party's (PRP) Information**

Information about the person or entity responsible for the reported incident.

Responsible party's organization

.....

Responsible party's name (first / last)

.....

Responsible party's phone number

.....

Responsible party's email address

.....

Responsible party's street address

.....

Incident/Spill/Event Details

Include as many details about the incident as possible to support informed decision-making for an appropriate response.

Date of incident/spill (month/day/year) *

MM DD YYYY

01 / 23 / 2026

Approximate time of incident/spill (MST) *

(hh:mm am/pm)

12:00 pm

Where did the event occur? (physical address, highway and mile marker, GPS coordinates; legal description. May include nearby landmarks or intersections) *

South of HWY 52, East of CR 19; lat 40.077475, long -104.886053

County where event occurred (write "unknown" if unsure) *

Weld

Is the incident / spill still occurring/active?

Yes

No

Unknown

Type of material

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other:

Approximate quantity of material involved?

Enter a number or range (*i.e 25 or 25-50*)

1

Provide unit measurements (*i.e. gallons, pounds, barrels, cubic feet, etc*)

barrel

Please select areas affected by the spill (*all that apply*)

- Concrete/Asphalt
- Gravel
- Dirt
- Water
- Dry waterway
- Fixed facility
- Air
- None
- Other:

If a **waterway** is impacted, please specify the **quantity** and **name** of the storm sewer, creek, river, lake, dry waterway etc.)

Spill into the Little Dry Creek

What was the cause of the incident / spill? *

Unknown

Detailed description of source (if applicable)

Gas line condensate

Who responded to the incident? (include name, phone and/or email if possible)

Responsible agency

What, mitigation actions, if any, have been taken?

Boom and oil pads placed

Add any additional details about the incident or an associated permit number (if applicable)

Unsure of exact amount, but enough for there to be a sheen on the creek surface.

Was there a second material?

Yes

No

Second Material

Type of material

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other:

Approximate quantity of material involved? (an exact number or range)

.....

Provide unit measurements (i.e. gallons, barrels, cubic feet, etc)

.....

Additional details about the 2nd material (specify)

.....

Was there a third material?

- Yes
- No

Third Material**Type of material**

- Petroleum Products (diesel, oil, gasoline)
- Exploration and Production Waste (Oil production)
- Waste Water
- Drinking Water
- Chemicals and Hazardous Substances
- Biological Waste
- Industrial and Process Waste
- Environmental and Miscellaneous Materials
- Other:

Approximate **quantity** of material involved? (an exact number or range)

.....

Provide unit measurements (i.e. gallons, barrels, cubic feet, etc)

.....

Additional detail about the 3rd material (specify)

.....

Do you have any additional information or comments?

.....

Form submission date and time will auto-generate upon submission.

This form was created inside of State.co.us Executive Branch.
