**Spills:**

Type	Area	Volume			

In Containment: No

Comment:

Multiple Spills and Releases?

**Equipment:**

Type:	#		corrective date
Comment:		<p>Three vertical pipes remain along wolf creek road, near the former entrances to the tank battery. A powerline string extending from wolf creek rd to well API001-07435 appears to have been installed for the purpose of providing power to oil and gas locations (Photo 15).The powerline remains and appears to be unused. See attached photos.</p> <p>An underground pipeline ground test station that appears to be unrelated to this facility is present on location.</p>	
Corrective Action:		<p>Comply with the reclamation rules to remove all debris, abandoned gathering line risers, and flowline risers, and equipment (regardless of ownership) within three months of plugging (1/22/2013) the associated facility.</p> <p>Remove the three vertical pipes near the entrance to the tank battery.</p> <p>Remove the power line to the nearest point of usage. See ECMC comment section for more information.</p> <p>Corrective action is backdated.</p>	Date: <u>09/15/2017</u>

**Pits:**     NO SURFACE INDICATION OF PIT

ECMC Comments		
Comment	User	Date
<p>If the operator wishes to leave the power line in place, a variance may be submitted according to Rule 502. Until a variance request has been submitted and approved, corrective action(s) and date(s) remain applicable. ECMC can not assume operator will submit a variance request. Until an official request has been submitted, inspector will continue with business as usual including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if request is denied.</p>	dunnama	01/22/2026
