Re: Burton/Hawks Exploration Co., Ltd.
#10 Spaulding

Attention: Bob Wellborn

Gentlemen:

You have advised that it is your intent to drill a Lakota Test at a location in S/2 SE/4 NE/4 Section 33, 9N-81W, Jackson County, Colorado in the Lone Pine Field. You have further advised that the surface location shall need be made which shall not be within the tolerances prescribed by the State of Colorado regulations and rules. Allied Chemical Corporation is the Owner of an interest in and to the leasehold estate as it relates to the NE/4 SE/4 Section 33 & SW/4 NW/4 Section 34, 9N-81W.

We have no objection to the surface location so long as the bottom hole location is within the limits and tolerances described by the State of Colorado rules and regulations.

Yours very truly,

UNION TEXAS PETROLEUM, A Division of
Allied Chemical Corporation

John F. Welch

Called Don Pickering with Union Texas.
He agrees with Burton-Hawks interpretation
that location at bottom of hole need be
only 200 feet from a lease line.
