Environmental

Spill/Remediation:

Comment: This is an Environmental Inspection for Remediation Project 37449 and Remediation Project 34392.

Remediation Project # 34392, Initial Form 27-I document no. 403372535, submitted on 3/14/2024 was filed for the ongoing spill remediation for Spill Facility ID 483705.

Remediation Project # 37449, Initial Form 27-I document no. 403783354, submitted on 10/20/2024 was filed for the ongoing spill remediation for Spill Facility ID 485862.

At the time of inspection, a crew was on site excavating materials within the secondary containment for the tank battery. Impacted soils were placed on the well location and there was a flatbed trailer with a tarp on location. During the site visit, there was an open trench on the south side of the tanks which appeared to be for the purpose of removing impacted materials. Additional impacts to soils were observed at the base of the tanks on the south side of the battery. Along the north side of the battery, a machine was used to scrape materials from the low lying areas of the containment.

Staff visited a site along Kiowa County Road # 58.5 where green cattle panels were set up on a low lying area. This area is identified as part of the ongoing spill remediation for Remediation Project # 37449.

Operator shall provide a standalone implementation schedule for Remediation Project # 34392 and Remediation Project # 37449 in the next quarterly Form submittal.

Operator shall continue Spill Remediation for Remediation Project 37449 and Remediation Project 34392 In accordance with Rule 913..

Corrective Action: Operator shall continue quarterly reporting until the site investigation is complete and Full Table 915-1 standards are met within the remediation area

The next quarterly report is due March 3, 2026

Date: 03/03/2026
