Corey....

Thanks for getting this information to me. I will have our operations/field operators take care of this.

Merry Christmas & Have a Safe and Happy Holiday Season,

Dick Pate

Subject: Ardourel Pad Wildlife Concerns

Good Afternoon Dick,

After conducting an inspection at the location on December 12th I identified a few wildlife compliance issues I wanted to bring to your attention.

Concerns include a fallen in/ripped wildlife net at the lube/chem tank secondary containment on the north end of the well pad as well as insufficient/non functioning wildlife coverings at the well pads. See attached photos below.

I'm hoping to get an official FIR submitted in the near future but with the Holidays approaching there is a chance it won't get submitted as soon as I was hoping. For these reasons I wanted to inform you ahead of time about the time sensitive issues identified on the location.

Thanks for taking the time to look at this, happy holidays.
