Mr. D. V. Rogers, Director
Oil and Gas Conservation Commission
1845 Sherman Street
Denver, Colorado 80203

Dear Mr. Rodgers:

We filed Application to Drill the #1-26 Federal, SE NW Section 26-9N-91W, Moffat County, Colorado, August 29, 1975. Enclosed are two survey plats of this location. The U.S.G.S., B.L.M. and the landowner requested that the location be moved from 1980' north and west of the section to the location shown on the plat. This was for reason of terrain and ecological problems. This was an expiring lease and it was spudded at 10:15 a.m. on August 31, 1975. Please approve our Application to Drill.

Yours very truly,

George E. Farmer
