**Spill/Remediation:**

Comment: This is an Environmental Inspection for Remediation Project # 20716 located at Latitude 38.414630; Longitude -102.469544 and Remediation Project # 34386 located at Latitude 38.413112; Longitude -102.471045.

Both remediation projects are tied to the King Pyles # 2 well location.

At the time of inspection, Remediation Project # 20716, Historical spill along the SWD Disposal Flowline r-o-w. Initial Form 27 document no. 402861082 received on 11/04/2021, showed signs of distressed vegetation within an area fence off to keep cattle from the remediation area.

Remediation Project # 34386; At the time of inspection, an open excavation was observed on the well location along the flowline r-o-w. Stormwater issues were identified along the excavation border and within the excavation. A perimeter fence surrounding the well location is in place. The open excavation within the boundary of the outer perimeter fencing has t-posts placed along the excavation border. There is no fencing or guarding between the t-post to secure the open excavation.

There is another excavation located @ Latitude 38.413338; Longitude -102.470950 adjacent to a flowline riser. There are signs of impacted soils within this excavation that will need to be investigated to confirm the presence or absence of impacts to soils. In addition, at the time of inspection impacted soils were observed on the well location between the large flowline excavation and the excavation located at the flowline riser. These areas will need to be investigated to confirm the presence or absence of impacts to soils.

Corrective Action: **Operator shall perform site remediation in accordance with Rule 913.a. through 913.i.** Date: 03/05/2026  
**The next quarterly update is due on 3/5/2026**

**ECMC Comments**

Comment	User	Date
<p>ECMC Complaint ID 200452242.</p> <p>Location: lat. 38.41479, long. 102.469 fenced area</p> <p>Description: at least 100 yards of one of my pastures that is unusable for grazing. it is marked off with a hot wire fence, however, the wire is not hot/not keeping cattle out. there are also numerous dead spots from previous spills where vegetation will not grow. there are also old posts lying around the site.</p>	sanchezcc	02/04/2026
<p>913. SITE INVESTIGATION, REMEDIATION, AND CLOSURE</p> <p>a. Applicability. This Rule 913 applies to the investigation, Remediation, and reporting required for Spills and Releases, Remediation projects, and decommissioning of Oil and Gas Facilities. All site investigation, Remediation, and closure operations will be conducted in accordance with the Commission's Rules, including the Commission's 1000 Series Rules.</p>	sanchezcc	02/04/2026
<p>All ongoing/unaddressed comments/COAs from previous Forms remain applicable.</p>	sanchezcc	02/04/2026
<p>Complaint ID 200452241:</p> <p>Location: lat. 38.41343, long.-102.470 giant oil spill hole</p> <p>Description: 3-4 years ago, this giant hole was dug in my pasture supposedly for remediation. nothing has been completed or even attempted in a very long time. the wire fence the oil company put around the site is not hot when checked today, or is it tall enough to keep cattle out.</p>	sanchezcc	02/06/2026
