Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 1. Looking south down the former access road. A new access road was constructed here unrelated to oil and gas operations. See FIR 697504154 for more info.

Photo 2. Looking south across the well and tank battery location. No oil and gas equipment remains on the location.

Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 3. Looking south across the tank battery portion of the location. Desirable vegetation is present on the location and appears to be progressing towards 80% coverage of the reference are. Undesirable weeds such as kochia, ragweed, and cheatgrass are also present on the location. This area appears to have less desirable vegetation than other parts of the location.

Photo 4. Looking north from the wellbore area. Desirable vegetation is present on the location and appears to be progressing towards 80% coverage of the reference are. Undesirable weeds such as kochia, ragweed, and cheatgrass are also present on the location.

Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 5. Looking east from the wellbore area. See photo 4 comments.

Photo 6. Looking south from the wellbore area. See photo 4 comments.

Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 5. Looking west from the wellbore area. See photo 4 comments.

Photo 6. photo taken on the south side of the location. Some dead and knocked down scotch thistles were observed on location. Thistles appeared to be controlled at the time of inspection.

Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 7. Reference vegetation to the south of the well location.

Inspection Photos
Location Name: UPRC #33-1M
Location ID: 328530

Photo 8. Historical aerial imagery taken 08/1971. The main access road (green arrows) appears to be preexisting to oil and gas. Red circle approximate location of well and tank battery.
