Environmental

Spill/Remediation:

Comment:

This is a follow up Environmental Inspection for Remediation Project # 37633. FIR Document no. 710500665 had a Corrective Action due date of 01/29/2026.

At the time of follow up inspection the Corrective Actions have not been addressed.

Open excavations were observed along the western edge of the location. There was a spoil pile of impacted material stored within a lined and berm containment.

The last quarterly update for Remediation Project # 37633 was received on 08/27/2025, Form 27-S document no. 404331965. The quarterly update (90-day) was due on November 25, 2025.

Operator shall submit a Supplemental Form 27-S, for Remediation Project # 37633. In addition, Operator will provide an explanation for late reporting on the next Form 27 Supplemental including actions implemented to prevent late reporting in the future.

In accordance with Rule 913.e., Operator will adopt a quarterly reporting schedule (every 90 days).

Operator shall provide a current map of the subject location including current excavation limits and/or sample locations, proposed/actual soil boring locations and monitoring well locations. GPS data used to create the map must comply with ECMC Rule 216. Operator will include historical and recent soil analytical data in a table format along with photo documentation.

Corrective Action:

The Original Corrective Action Date of 1/29/2026 shall apply.

Date: 01/29/2026
