COLORADO OIL & GAS CONS. COMM.

CITIES SERVICE OIL COMPANY  
FEDERAL "B" #1  
PROPOSED RIG LAYOUT

2. Planned access roads. Shown on the attached map in green.
3. Location of existing wells within a two mile radius of the proposed location. No known wells are within a two mile radius of the proposed location.
4. Lateral roads to well location. Covered in question #2 above.
5. Location of tank batteries and flow lines. Oil production is the primary objective of the proposed well. Any tank batteries will be constructed at the well site with the production trucked to a sales point. In the event commercial gas production is discovered, a pipeline right-of-way will be secured by a commercial pipeline company.
6. Location and types of water supply. Walden Reservoir. Watering point shown on attached map in blue.
7. Methods for handling waste disposal. Arrangements will be made with the City of Walden for periodic trash pickup. Drilling waste will be buried at the well site.
8. Location of camps. Drilling personnel will live in town.
9. Location of air strips. None will be needed.
10. Location of layout to include position of the rig, mud tanks, reserve pits, burn pits, pipe-racks, etc. Shown on attached plat.
11. Plans for restoration of the surface. Road and location will be built with the minimum amount of dirt work. After drilling and testing, the surface will be restored as nearly as possible to its original contour and seeded with grass in accordance with the Bureau of Land Management specifications.

Continued.

Federal "B" #1  
September 18, 1973  
Page 3.

12. Any other information that may be used in evaluating the impact on environment. The Federal "B" #1 is staked in an area of gentle relief with a sparse growth of grass and sagebrush. Construction of the proposed location will cause an minimum of surface disturbance and environmental harm.

Yours truly,

CITIES SERVICE OIL COMPANY

W. S. Moore,
