13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Shell Oil Company spud the well on 8/20/1977 and plugged and abandoned the well on 8/16/1982. In 1999, Shell Oil Company conveyed to Shell CO2 Company, Ltd. all wells in a Purchase and Sale Agreement, including Lease C-13359. Shell CO2 Company completed a "Transfer of Operating Rights" form on 12/21/1999, also including the C-13359 lease. Shell CO2 Company, Ltd. is now Kinder Morgan CO2 Company LLC and the current registered operator on record of the well. This Final Abandonment Notice is being filed to clean up historical records for U.S. Forest Service, Bureau of Land Management, and Colorado Energy & Carbon Management Commission. See attached letter from USFS, the surface owner of the location, for release from surface reclamation requirements.

Dear Mr. Patillo,

This letter is to document the status of Federal 24-40-17 #1, API 05-033-06027, and its associated access road.

Per ECMC records, the well in question was plugged and abandoned in 1982. I was unable to find records associated with this well in AFMSS, due to the abandonment predating the system.

As a result, I am unable to find the agreed upon reclamation requirements for the pad and its road. When the well was plugged and abandoned, a final abandonment sundry notice would have been submitted to the San Juan National Forest (Forest), and the Forest would have had the opportunity to request additional reclamation at that time.

Therefore, it can be assumed that the Forest wanted to keep the road intact at the time of Federal 24-40-17 #1's abandonment. Additionally, the road was used for timber sale activities in the years following the well's abandonment.

The wellpad has been sufficiently reclaimed and I hereby release Kinder Morgan from reclamation requirements for the associated access road.

Sincerely,

NICHOLAS MUSTOE
Dolores District Ranger
