Inspection Photos
Location Name: STATE #1-2
Location ID: 382176

Photo 1. Looking north across the pad. The pad is primarily bare soil. Some desirable perennial vegetation establishment is present on the location. The location is not reflective of the surrounding reference area. No oil and gas equipment is present on the location.

Photo 2. Photo taken in the center of the location near the wellbore gps coordinates. Photo illustrates ground cover.

Inspection Photos
Location Name: STATE #1-2
Location ID: 382176

Photo 3. Looking south across the location. See photo 1 comments.

Photo 4. Photo taken looking east from the center of the location. Bare areas of soil are present extending east from the pad. This area is not reflective of the surrounding reference area. This area also does not appear to have been contoured and may have been pit/ equipment area.

Inspection Photos
Location Name: STATE #1-2
Location ID: 382176

Photo 5. Looking South across the eastern portion of the location. See photo 4 comments. Berms and depressions are present in this area.

Photo 6. Looking northwest from the west side of the location along the former access road. Vegetation on the access road is reflective of the surrounding area.

Inspection Photos
Location Name: STATE #1-2
Location ID: 382176

Photo 6. Reference vegetation to the west of the well location.
