

ECMC Field Inspection Report Summary

This is an environmental inspection to determine progress on Spill ID 493289. Any corrective actions from previous inspections, NOAVs and/or conditions of approval from previous forms that have not been fully addressed are still applicable. There were no operator or contract environmental personnel on location at the time of this field inspection. Photos attached to document site conditions.

Site/Spill Name: CR41 & CR28 (UPRC Meter) 2/2026

Spill ID: 493289

Reported Date of Discovery: 2/24/2026

Date of Inspection: 03/03/2026

Weather: Mostly cloudy, wind ~16mph, 48°F

Note: Spill is on Location ID 493349/Tank Battery 493350, associated with another Operator. The Tank Battery will be included under Field Inspection Report Document # 717100483.

Current site status:

-Stained soil is visible on the ground surface adjacent to the meter house—primarily to the south, southeast, and southwest.

-Pink spray paint surrounds the stained soil.

-Underground utility markings (paint and whiskers) are visible on location.

-Residue is visible on the valve on the southern side of the meter house, at the point of spill discovery.

-A hissing sound was observed at the valve on the south side of the meter house. See attached video. ECMC staff reported the noise via the Operator's posted emergency contact phone number. Per correspondence with the Operator, a detailed description of the incident will be included on the next Form 19 — Supplemental Report, due by 03/06/2026.

-Emergency contact number was visible on a pipeline marker at the southwest corner of the location.

-No indication of remedial activities present.

See attached comments.

**Spill/Remediation:**

Comment: Spill ID 493289 was created to address the remediation of impacts originating from a valve on the meter house. Residue is visible on the valve on the southern side of the meter house, at the point of spill discovery. Stained soil is visible on the ground surface adjacent to the meter house—primarily to the south, southeast, and southwest. Pink spray paint surrounds the stained soil. No indication of remedial activities present.

Corrective Action: In accordance with 912.a.(2) Operator will investigate, cleanup, and document impacts resulting from Spill and Releases as soon as the impacts are discovered. A Form 19 – Supplemental Report which includes all information required by Rule 912.b.(4) is due by 03/06/2026. Date: 03/06/2026
