Inspection Photos
Location Name: STATE #1
Location ID: 316923

Photo 1. Looking southeast across the former tank battery area. No reclamation activity observed.

Photo 2. Electric poles terminate at the tank battery and remain in place.

Inspection Photos
Location Name: STATE #1
Location ID: 316923

Photo 3. Looking east across the former tank battery area. Pipe riser remains on location. Contaminated soil pile does not have any stormwater BMPs surrounding it.

Photo 4. Looking west across the southernmost pit (ID 440212). Pit remains. There may have been some recent excavation work in and around the pit.

Inspection Photos
Location Name: STATE #1
Location ID: 316923

Photo 5. Looking west down the access road towards the wellhead. The access road remains.

Photo 6. Looking South across the wellhead area. Pipe riser, concrete pad and electrical poles remain. Subsidence was observed around the wellbore.

Inspection Photos
Location Name: STATE #1
Location ID: 316923

Photo 7. Electric service travels westbound along highway 36 from the well and tank battery location. It appears that the electric line served only this well and the former tank battery on the west side of county road U.

Photo 8. Photo taken west of the well location looking north up the access road. List B noxious weed scotch thistle was observed on location.

Inspection Photos
Location Name: STATE #1
Location ID: 316923

Photo 9. Looking north along the ditch and berm south of the tank battery location. The ditch and berm remains.
