

Final Reclamation and Stormwater Inspection

April 8, 2026

Operator: NOBLE ENERGY INC - 100322

Location ID: 317827

Well Name: ACCO-TERRA-BODEKER #40

Inspection Document #: 718601566

Weld County, CO

Anthony Dunnam
Reclamation Specialist, ECMC

COLORADO

**Energy & Carbon Management
Commission**

Department of Natural Resources

Inspection Photos
Location Name: ACCO-TERRA-BODEKER #40
Location ID: 317827

Photo 1. Looking east down the main access road. This access road appears to be preexisting to oil and gas development.

Photo 2. Photo taken approximately 1000 ft west of the well location along the access road at the tank battery location. There is less desirable vegetation establishment on the tank battery area than the surrounding reference area.

Inspection Photos
Location Name: ACCO-TERRA-BODEKER #40
Location ID: 317827

Photo 3. Looking northeast across the tank battery area. See photo 2 comments.

Photo 4. Looking north north down the former access road to the well area. Desirable perennial vegetation is present on the access road.

Inspection Photos
Location Name: ACCO-TERRA-BODEKER #40
Location ID: 317827

Photo 5. Looking north across the west side of the well location. It appears that production equipment was located in this area. A fence, sign, pipe riser, and heavy gravel remain on location.

Photo 6. Looking east across the well location. There is desirable perennial vegetation surrounding the remaining equipment. The area within the remaining fence is bare ground or gravel.

Inspection Photos
Location Name: ACCO-TERRA-BODEKER #40
Location ID: 317827

Photo 7. Reference vegetation to the east of the well location.

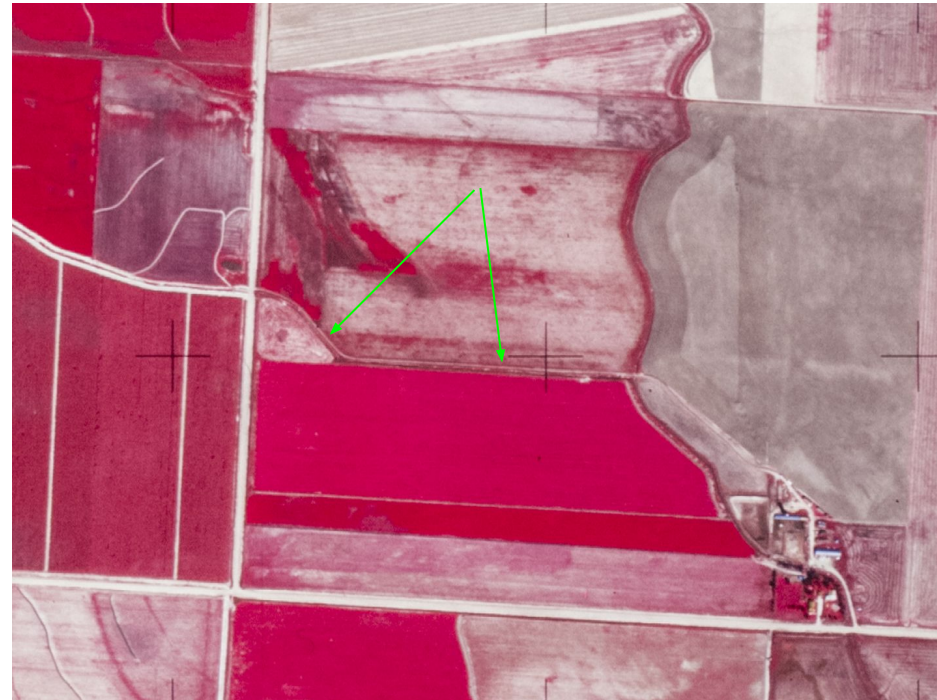

Photo 8. Historical aerial imagery taken 09/1972. The main access road appears to be preexisting to oil and gas development (green arrows).
